Lori -

With regards to the SSN to AHCCCS ID conversion, DDD would like to request a test file be made available prior to the December 16 production run date. I am referring to the file outlined in Robert Heppler's email dated October 20. At this point in time, we will only need a small subset (perhaps 10-20%) of the production data for both current clients and those members that are not enrolled.

Please be advised upon receipt of the production files (tentatively scheduled for 12/16/2004 and 12/23/2004), DDD shall need time to verify the input files before processing them in our production environment. We will not be able to process any Roster records until the AHCCCS ID conversion project completes. Depending upon the results of the verification process, and the update procedures itself, we may be talking a few to several weeks.

I have attached a copy of the original email from Robert for your convenience.

I will not be able to attend the consortium meeting next Tuesday, but I believe Major Williams will be there to represent DDD.

Thank you.

Georgia Campbell
